"Eartheffect โลกกระเทือน"

Year 2010-2011

Earth quake shook Heiti, Chili, New Zealand, Japan.
The tear of the sea shredded Japan in our very eyes.
Then nuclear radiation spells the air and water and products of the earth.
Mud slides after off-seasonal heavy rain hit southern Thailand
destroyed many villages and damage the region infrastructure...
In Northern Burma many villages and hundreds of lives were destroyed by earth quake,
while we've never heard of such lost..!
This Eartheffect is of nature...
But in the other Eartheffect...
People uprising in Tansania followed by Egyptians, which change the government.
Today people's call for change echoing in Libya, Yemen, Syria and Jordan and etc...
And here... in Thailand
The politic of voicing untruth,
Politic of power of lies and corruptions.
How long this would let go on?...
