Cologne 01.02.2013

Dear Chumpon Apisuk,

We invite you to our PAErsche summer Performance-Art-Program in Cologne / Germany, held in 14-19 May 2013.

The PAErsche Art Laboratory NRW will work interdisciplinary this year in the open urban city with artists from several countries.
The concept is based on the idea of *The Art of Encountering*.

There will be about 10 performing artists in this block. The project will explore different parts of urban development in Cologne and use the public space with its people. Further details to the program will follow in the next weeks.

We will prepare accommodation, food and some materials. We would be proud and very happy, if you will participate.

Please do not hesitate to contact us for further details and information.

Sincerely
Yours

Rolf Hinterecker
